WHO I HELP

FOUNDERS WHO NEED A TECHNICAL PARTNER THEY CAN TRUST.

- Nontechnical founders moving from idea to first launch
- Early-stage teams validating a new product or internal tool
- Operators who want direct access to the builder, not agency layers
- Buyers who value speed, clarity, and plain-English communication

WHAT I DELIVER

A CLEAN FIRST VERSION THAT PEOPLE CAN ACTUALLY USE.

- MVP scoping sprint to cut scope to what matters
- UX and product thinking for a clean v1 experience
- Full-stack build from frontend to backend
- Deployment, launch support, and 30-day bug coverage

THE 4-WEEK LAUNCH

FROM IDEA TO LIVE MVP IN 4 WEEKS.

Fixed-scope engagement with weekly demos, direct communication, and launch support.

WEEK 1

Scope and roadmap

Feature cuts, product decisions, and a realistic launch plan.

WEEK 2

Core build

The product becomes real quickly, with visible momentum.

WEEK 3

Refine and integrate

Polish, feedback, integrations, and key user flows.

WEEK 4

Launch

Deployment, handoff, and post-launch bug shield.

RELEVANT WORK

PROOF THAT I CAN SHIP THE KIND OF THING FOUNDERS ACTUALLY NEED.

Genrupt

Ongoing development partner for an AI image and video generation platform.

BA Events

AI-powered event discovery product with conversational UX and production data pipelines.

Best fit

Founders who want a focused first version, weekly demos, and a product they can actually show users.

PRICING

STARTING AT $7,500
