

CONTRACT FULL-STACK
PRODUCT ENGINEER

Hanif Carroll

hanif@hanifcarroll.com hanifcarroll.com [linkedin.com/in/hanifcarroll](https://www.linkedin.com/in/hanifcarroll)

I build AI, web, and mobile products, from MVP to production.

Available for contract, project, and overflow work — as easy to hire as any US contractor.

BEST FIT

Contract full-stack product engineering

AI product builds and agent workflows

MVP to production work

Agency overflow and product rescue

Founder-led product teams

CAPABILITIES

Full-stack web apps

Mobile apps with Expo and React Native

AI workflows, agents, and evaluation loops

Payments, subscriptions, and billing

Product scoping, UX, and launch support

ENGAGEMENT

Contract via HC Studio LLC (1099/C2C)

US hours, no EOR or foreign payroll

US citizen, based in Buenos Aires

SELECTED WORK

Genrupt

AI media agent platform for Amazon sellers

Turned an AI media MVP into a production platform with subscriptions, credit billing, background jobs, and agent access. Helped support the first 100 paying customers.

hanifcarroll.com/projects/genrupt/

Palabruno

Spanish reading app for mobile and web

Built and launched the product across iOS, Android, and web with teacher workflows, AI reading features, subscriptions, billing, store assets, and launch support.

hanifcarroll.com/projects/palabruno/

Casamo

AI stay-audit product for remote workers

Built and launched a paid stay-audit MVP with Airbnb and Booking.com scans, saved reports, accounts, usage limits, analytics, and evidence-backed host questions.
