Summary

Product-minded Full-Stack + AI Engineer with 8 years of experience building and launching web, mobile, and AI products with founders. Recently shipped an AI/agent-powered Amazon seller workflow platform and built a Spanish reading app (iOS, Android + web) from concept to production with subscriptions and LLM features.

Technical Skills

AI & Agents

OpenAI / Anthropic APIs • MCP • Evals • RAG • Agent Workflows • Embeddings

Frontend & Mobile

TypeScript • JavaScript • React • Next.js • TanStack Start • React Native / Expo • iOS / Android Apps

Backend & Data

Node.js • Rails • PostgreSQL • Supabase • pgvector • Stripe • RevenueCat

Infrastructure & Tooling

ChatGPT Codex • Claude Code • Cursor • Vercel • Cloudflare • Docker • Browserbase • Playwright

Work Experience

Founder & Lead Product Engineer	HC Studio LLC	Mar 2024 – Current
- Solo product studio building AI-powered web and mobile products for early-stage founders — owning discovery, MVP scoping, UX, full-stack build (TypeScript/React/Next.js/React Native), billing, and launch. - Scaled Genrupt from AI-media MVP to production Amazon Creative Ops platform, landing its first 200+ paying customers; built agent/MCP workflows, async job processing, and credit-based billing. - Took Palabrino from founder idea to live on the App Store, Google Play, and web — owning product, UX, and full-stack engineering for AI reading features, teacher workflows, and subscription billing.		
Senior Front End Engineer	LeagueApps, later Nearsure Contractor	Nov 2021 – Feb 2024
- Reduced organizer scheduling time by 45% by building drag-and-drop calendar workflows, automated conflict detection, and double-booking prevention for multi-team seasons and tournaments. - Built flexible reporting screens with AG Grid so organizers could analyze event and registration data without engineering support. - Optimized rendering of large reporting grids (tens of thousands of rows) with virtualization and memoization, reducing load and interaction lag by 70% for high-volume organizations. - Eliminated recurring double-bookings in complex multi-team scheduling via proactive conflict detection and in-app alerts, improving reliability for organizers.		

Software Engineer

Capgemini

Jan 2019 – Oct 2021

- Led end-to-end delivery of a critical reporting module for Disney Cruise Line's ship and crew management system while building additional UI screens that streamlined daily operational workflows for ship staff and management.
- Designed and built executive KPI dashboards for Cisco that provided real-time visibility into system and operational performance.
- Cut automated test-suite runtime 60%, significantly improving release velocity.
- Maintained five Java Spring Boot microservices for GE Aviation, collaborating across offshore teams.

Front End Engineer

8base

Nov 2017 – Nov 2018

- Developed custom CI/CD scripting integrating Jira and GitLab to automate ticket state transitions, streamlining the developer-to-QA handoff pipeline and reducing average ticket close time by 15%.
- Built a comprehensive automated testing suite that minimized manual QA bottlenecks and drastically improved production software stability.
- Refactored 20+ shared UI components into a reusable component library, reducing duplicate code by 30% and cutting implementation time for new features by approximately one-third.

Independent Projects

- **Casamo (casamo.app)** - AI tool that helps remote workers find suitable 2–8 week furnished stays on Airbnb and Booking.com. Scans up to 100 listings per destination, analyzes photos/reviews/amenities for workspace, kitchen, and livability, then delivers a curated shortlist with evidence and targeted questions to ask the host. Private beta. Rails, OpenAI, Browserbase, Stripe.
- **BA Eventos (baeventos.com)** - Bilingual AI event concierge for Buenos Aires that scrapes and enriches multiple sources daily to power semantic search, saving, directions, and sharing. Has processed 36,000 events. Live. Trigger.dev, Claude agent, Playwright, OpenAI embeddings + pgvector.

Education

- **B.S. in Health Sciences**, University of South Florida
